

April 23, 2020

Good Afternoon,

Received this information just a little while ago from one of our members. The City is opening two new sites to expand testing capacity for essential workers and residents with barriers to healthcare. One is located close to the ballpark and is open now, and the other, which is actually opening on 4/27, is at 7th Street and Brannan. Below is the link to the City website which explains how to schedule a drive-up or walk-up appointment.
