

April 20, 2020

**Hello,**

**The San Francisco Municipal Transit Authority has announced the creation of the “Essential Trip Card”. It allows people who normally rely on public transportation, or other informal resources to get to the store, doctor, bank, etc., to purchase a ride card for only 20% of its value. That means you can purchase a card for \$12.00 and receive \$60.00 worth of taxi rides to take care of necessary business.**

**Here is the link to their site which explains the program much better than I just did, and how you can apply.**

**Thank you,  
Frank**
